

Jumana and her twins

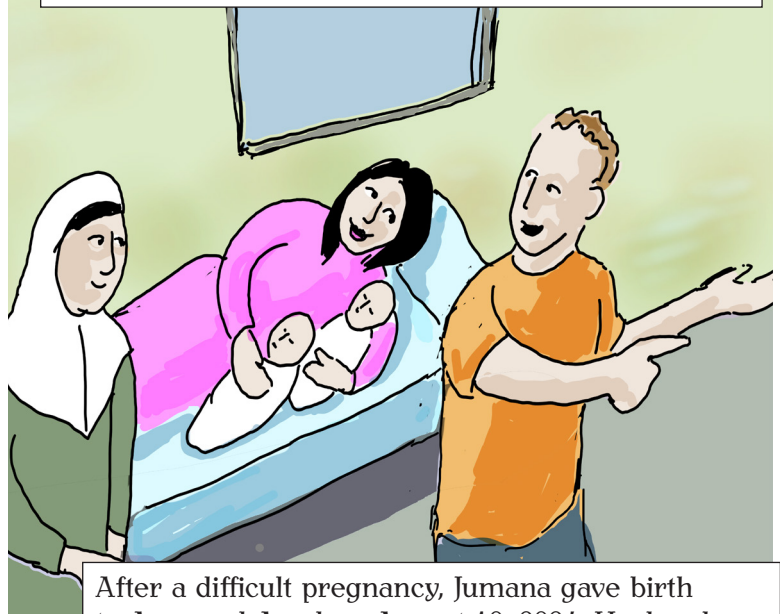

Jumana Abu Al Qumsan (@dr.juman95) and her two 3-day-old children, a boy and a girl, named Aser and Assel

Husband Mohammed (@mohammed.mahdi) had studied in Turkey and worked in Abu Dhabi. He had gone to Gaza (Jabalia) in August 2023 to marry Jumana. When the war began, they had to move, first to Khan Younis, then to Rafah, and finally to Deir Al Balad.

They rented a house in a safe area of Deir Al Balad. Jumana was a pharmacist and volunteered at Al Aqsa Hospital during her pregnancy.

After a difficult pregnancy, Jumana gave birth to Aser and Assel on August 10, 2024. Husband Mohammed went to the civil registry three days later to register their names.

Before Mohammed returned, Israel bombed the room where Jumana, the children, and their mother were, on the fifth floor of the building. Jumana was thrown out and fell to the street.

When Mohammad returned happily with the children's birth certificates, he received news that his wife, his children, and his mother-in-law had been martyred.
